

# UR Vision Resources

UR Community Cares has developed UR Vision Resources to support individuals who are blind or vision-impaired. We provide assistive technology devices to libraries, senior centers, low vision support groups, and special events. These devices are available for trial with guidance from our dedicated volunteers. Additionally, we offer our blind and low vision service directory at no cost.

## Assistive Device Products Available for Demonstration:

- **Eschenbach Products:** Optaro with stand, Magnifiers-video, handheld, pocket, monoculars, glasses, etc.
- **NV Access on our laptop:** To provide a free screen reader for blind and vision-impaired people, and enhance accessibility.
- **Ray-Ban Meta glasses:** They include two cameras, open-ear speakers, a microphone, and a touchpad built into the frame.
- **IPAD and Much More!!**

**Invite us to your  
event and we can  
do a  
presentation on  
UR Vision Resources.**
