

UR Vision Station

UR Community Cares created the UR Vision Station for people who are blind or have low vision. Our Executive Director created a directory filled with resources about organizations and services available in Connecticut and beyond.

Assistive Device Products Available for Demonstration:

- **Eschenbach Products:** Optaro phone case, magnifiers-video, handheld, pocket, monoculars, glasses, etc.
- **Ray-Ban Meta** glasses feature two cameras, open-ear speakers, a microphone, and a touchpad integrated into the frame.
- We have over 30 devices to demo, including an iPad and a **Lyriq** (screen reader) - **invite us to your office.**
- In Manchester - Juliette 120 Embosser, CCTVs, NVHD access on laptop, etc.

UR Community Cares travels around Connecticut to showcase these products, educate people the devices that are available.
